SUCCESS

DONATION FORM

The George B. Brooks, Sr. Community School (GBBCS) was Formally founded by the Roosevelt School District (RSD) in September of 2012. Its formation was the culmination of a five year effort to bring community value to under-utilized assets within RSD.

GBBCS is self sustaining and requires tuition, fees, grants, donations or other income to support it's programs. We are committed to sustainability and expect to distribute produce, fish, and prawns from our agriculture program for revenue and plan direct distribution through our elementary schools to families.

With your generous donations and support we hope to generate sufficient revenues to sustain operating costs, and provide ongoing science, technology, engineering and mathematics (STEM) education through project-based learning to hundreds of families and K-8 children within walking distance of the campus. Also housed at this facility is a large state of the art greenhouse and gardens.

GBBCS provides greater opportunities for South Phoenix and through innovative use and development will address many of the key needs identified:

- 1) Improve student test scores through improved family wellness and increased instructional time.*
- 2) Provide and expand learning for the whole child, including health and physical fitness beyond the demands of the core curriculum.*
- 3) Expose students to age-appropriate career orientation and related practicing professionals based upon their early interests.*
- 4) Re-engage the community and staff through an innovative experience.*
- 5) Extend the use of existing taxpayer owned facilities to support GBBCS.*
- 6) Enhance the educational opportunities and career prospects for the entire family across the wellness spectrum.*

Contact us to discuss how you can help.
